

## PROHIBITED WASTES

The following wastes are prohibited from being disposed of at New River Regional Landfill:

**HAZARDOUS WASTES:** Solid wastes that are listed as hazardous waste by the E.P.A. or meets one or more of the following criteria as defined by E.P.A.: ignitable, corrosive, reactive, or toxic. Examples; solvents, heavy metals, ignitable wastes, acid\alkaline wastes, paints, used oil and grease, pesticides, oxidizers, poisons, explosives, creosotes and wastes with placards or markings indicating hazardous wastes.

**PCB'S:** A carcinogenic materials regulated by E.P.A. found in electric transformers, fluorescent light fixtures, etc...

**RADIOACTIVE WASTES:** Solid wastes regulated by the Nuclear Regulatory Commission. Examples; medical radioactive wastes and household smoke detectors.

**BIOMEDICAL WASTES:** Solid wastes containing medical or infectious wastes regulated by D.H.R.S. Examples; blood, blood parts, needles, dressings, bodily discharges from hospitals, mortuaries, nursing homes, dentist offices, clinics, veterinary offices and research laboratories. Wastes are often referred to as "Red Bag" Wastes.

**PESTICIDE CONTAINERS:** Containers containing insecticides, fungicides, or rodenticides regulated by the E.P.A. unless they have been triple rinsed and punctured. Properly prepared containers are to be disposed of in a Class I Landfill only.

**ASHES AND INCINERATOR RESIDUES:** Solid waste residues from combustion activities regulated by E.P.A. Examples; Incinerator ash and burn barrel ash from non-residential sources.

**FREE LIQUIDS:** Paints, sludges or other liquid wastes tested for free liquids that fails to meet the Paint Filter Test method 9095.

**LEAD BASE AND OIL BASE PAINTS:** Any paints in solid or liquid state containing lead or are oil based can not be disposed of by landfilling.

**LEAD-ACID BATTERIES:** Automotive lead-acid batteries are strictly prohibited from landfilling but may be recycled at County's solid waste collection sites.

**MERCURY CONTAINING DEVICES:** Florescent light bulbs, thermometers, thermostats, transformers, capacitors, and electrical circuit boards containing mercury residue as regulated by Chapter 62-737 FAC.
